Flexible.  
Effortless.**

# ELM8 with Light & Motion

## Carry Less, Create More.

Small, powerful and cordless, the ELM8 is the most versatile continuous LED light on the market. Complete integration with Elinchrom's unique ecosystem and light shaping tools makes the ELM8 the perfect match for your existing lighting kit.

### Capture What You See

Whatever your level of lighting expertise, the ELM8 is a powerful and intuitive solution allowing you to master your lighting setup effortlessly in no time. Now, experience a real-time preview of how your subject will look. **Create your images as you see them.**

### Portable Power

With an outstanding light output of 8000 lumens, the ELM8 provides a consistent, beautiful beam with precise color, making it the ideal light for photo & video creators demanding minimal weight with remarkable power. **Enjoy beautiful lighting on the spot, wherever you are.**

### Shoot Cordless

With its rugged and compact design, the ELM8 allows you the freedom to shoot anywhere, anytime and in any weather conditions. And with no power cord to plug, you're ready at a moment's notice. **Enjoy the freedom to shoot anywhere.**

### Shape & Control Your Light

Extend the use of your gear and benefit from Elinchrom's unique light-shaping accessories. Make adjustments to your lighting setup from behind your camera thanks to the Elinchrom Remote Control. **Take full control of your light.**
